**Subject:** Microsoft settlement

DOJ, I believe you should exert every effort to settle this case. In my opinion it was an outrage. Here is a wonderful company that has given the consumer the very finest in software and enhanced the productivity of many companies. Because they were tough on the competition, these same competitors enlist the help of the government to help destroy this competition!!! In the word of Scott MacNealy.....da. Lets do the economy and the consumer a big favor and settle this case in favor of Microsoft....NOW. Thank you.
